THE TEAM OF

PAW  
DOG

# WHO WE ARE

Anyone who's been in crypto for years knows that 99% of projects are total scams, where later investors are used as exit liquidity. Trust has become a rare commodity, with most people learning the hard way not to rely on anyone. Well, we're here to change that mindset.

The core of our team, both in terms of ideas and finances, is made up of **European** members, who provide the foundation for the project. However, our **African** friends play an indispensable role, offering crucial support, especially in areas like brainstorming, community growing and moderation. Their contributions bring valuable perspectives and help shape the direction of our efforts.

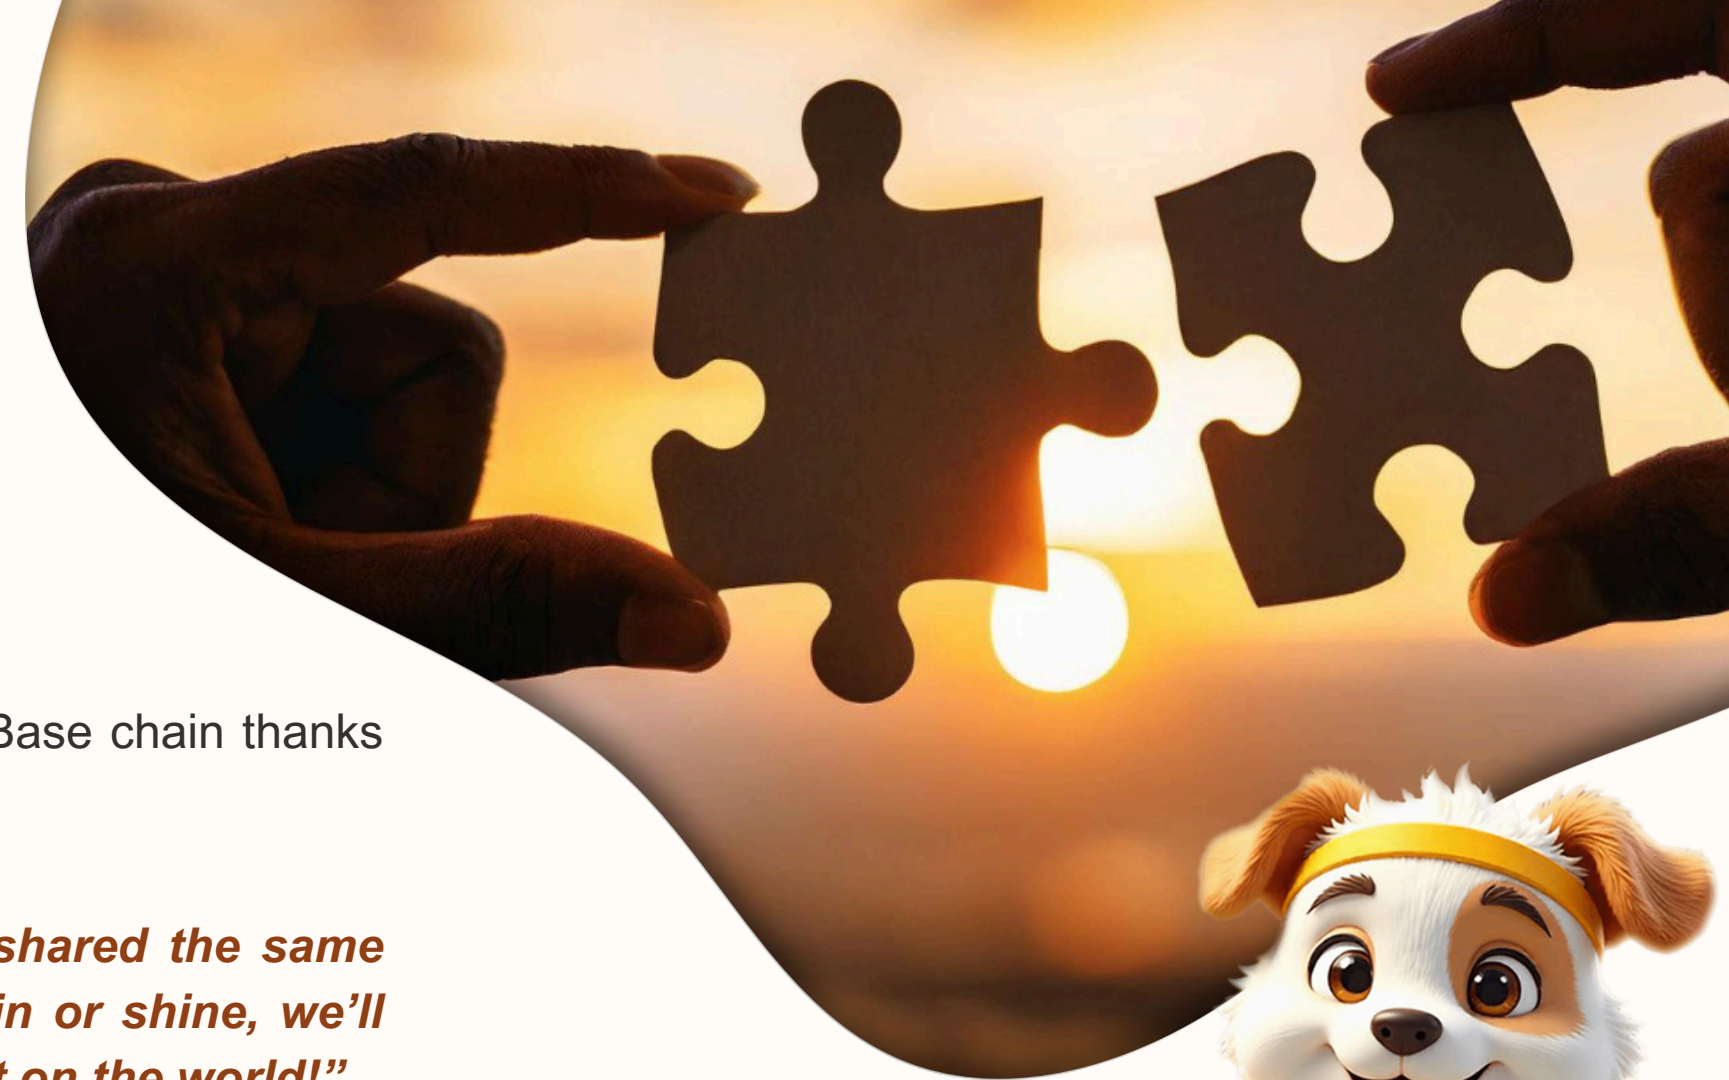

**We have years of experience in the volatile and unpredictable world of crypto, and through Pawdog, we will bring our vision to life.**

# SHARED VISION

The original vision was created by **DOJODOG**, that we launched on Base chain thanks to the **Dojo** launchpad, established by **Goat Trading** and **Sushiswap**.

*“DOJODOG is my elder brother. Though we were born on different chains, we shared the same bowl from the start. Our bond is unbreakable, destined to last forever. Come rain or shine, we’ll stand side by side, fighting to achieve our ultimate goal: making a MASSIVE impact on the world!”*

## ***Dark and cruel world***

Hatred and hostility dominate the world, people are ruthless with one another and will do anything to make a lot of money. Only the ego matters, while solidarity and empathy are becoming extinct.

## ***Fun we all need***

Humor helps people get through the toughest times. Humor is a weapon. We arm ourselves with good spirits and will fight every day to spread this positive mindset to others. ‘Why so serious?’

## ***The Twist***

We refuse to accept this fact. As the last guardians of the light, we are convinced that this process can be reversed—with cheerfulness, good humor, and helping others.

## ***The Movement - spread love globally***

Dogs are human’s best friend—loyal, devoted, humble, and empathetic. In reality, we are helping ourselves when we do good for them. They deserve all our respect.

# FUTURE PLANS – PART 1.

Without an active and dedicated community, we are nothing. They are the ones who make us great and strong.

## Community Growing

In the world of meme tokens, a strong community is the most important aspect. The message must be spread every single day. Since everyone wants to earn money, we will not fall short in this regard. There will be plenty of contests, giveaways, competitions, trivia, treasure hunts, raffles, raid2earns and more to encourage everyone to participate actively. Of course, we hope that it's not just these incentives that motivate you.

## The Loyalty Club

We reward loyalty. We have the technical means to reward those who are the most active and dedicated members of our community in the medium and long term. By recognizing and celebrating their commitment, we foster a culture of appreciation that inspires everyone to contribute to our shared mission.

## Partnership with DBL

We aim to build a stronger relationship with Dogs for Better Lives through regular donations. Negotiations are already underway, and our shared goal is to transform the world into a more compassionate and loving place. Together, we believe we can make a meaningful impact and bring hope to those in need.

# FUTURE PLANS – PART 2.

Without gratitude and humility, there is no true ascension.

## The Paw Chain - First Movers

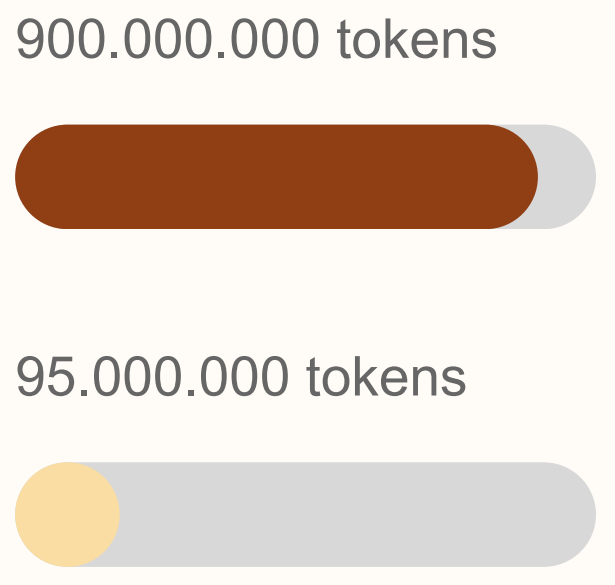

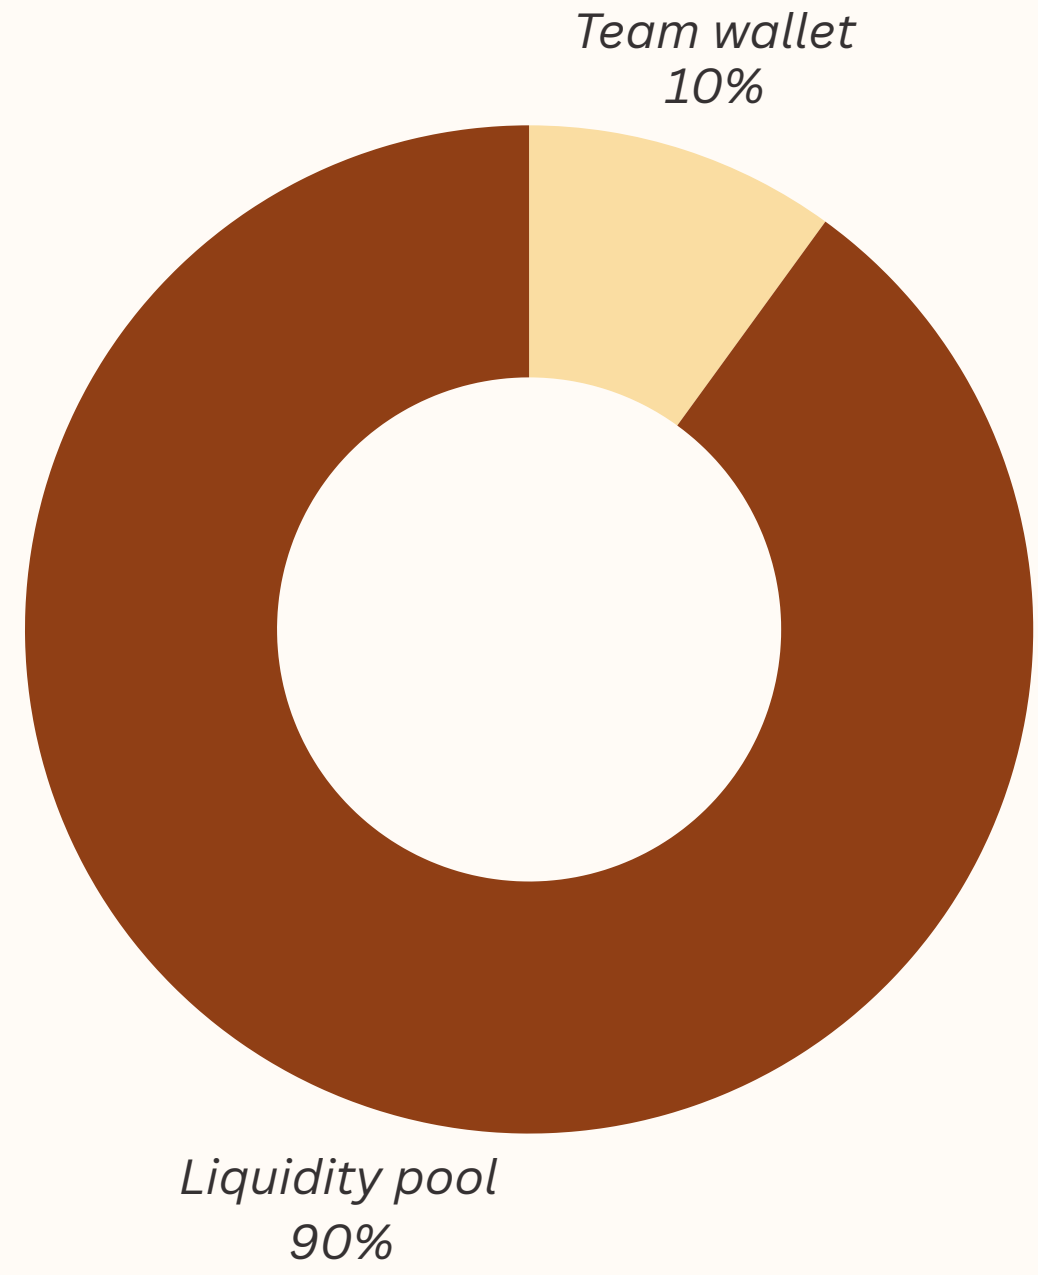

Technological advancement is unstoppable; just look at the new possibilities offered by AI. Blockchain technology continuously presents new challenges, even to the most professional businesses. The Paw blockchain offers a revolutionary, entirely new solution to one of the most pressing problems in blockchain technology: bridging. With its external swap feature, it opens new dimensions in the DeFi world, optimizing the trading process between blockchains.

## Featured Project

Over time, we aim to become one of the most prominent projects on the Paw chain, and we believe this is achievable through our collective efforts. Pawdog aims to become the business that significantly contributed to the initial success of the Paw Chain. Those who have ventured into business know that the hardest believers to find are the initial ones. The FOMO comes afterward.

## Grow through collaborations

For us, competition within our own ecosystem is not the main focus. We are not looking to take the largest slice of the pie; instead, we want to ensure that this pie grows as big as possible. The Naked Mole is a fantastic project—original and humorous. We want to see as many successful meme tokens launch on the Paw Chain as possible.

# TOKENOMICS

NO TRICKS, NO SHADY WALLETS, JUST PURE TRANSPARENCY.

**Total Supply**  
**995.000.000**
